

"New Productive Forces – Smart Strategy for Enterprises' Upgrade and Transformation" Artificial Intelligence

Free Seminar

14th November
2025
16:00-18:00

Future Manufacturing Hall,
LG1, HKPC Building,
78 Tat Chee Avenue,
Kowloon

Cantonese and
Putonghua

Public interested in artificial
intelligence or related
practitioners

The "New Productive Forces – Smart Strategy for Enterprises' Upgrade and Transformation" is designed for enterprises to explore how new productive forces can drive rapid business transformation. Bank of China (Hong Kong) (BOCHK) and Hong Kong Productivity Council (HKPC) will analyze current trends and strategies for industrial upgrading, and share insights on leveraging new productive forces. The seminar will introduce HKPC's application of AI technology in various industries and showcase successful cases of applying government funding schemes for upgrading the artificial intelligence industry. Additionally, it will highlight the products and services of bank tailored for the industries to help enterprises seize business opportunities and enhance financial flexibility. Attendees will also have the opportunity to visit the "Agentic AI and Industrial Metaverse Hall" where they can see real-life examples of the AI applications discussed during the event.
