AI Going Global to ASEAN:
Emerging Opportunities in the Malaysian Market

Strategically located at the heart of ASEAN, Malaysia has emerged as a top choice for global tech giants to establish data centres and AI projects, thanks to its cost-effective utilities and land. As Malaysia's semiconductor industry evolves from traditional packaging, testing, and assembly toward advanced packaging and chip design, the country offers Hong Kong's SMEs an ideal environment for technology deployment and large-scale implementation.

Organised by the Hong Kong Productivity Council (HKPC) and supported by Bank of China (Hong Kong) Limited (BOCHK), this seminar brings together experts in cross-border finance, AI industry development, and technology applications to help you decode ASEAN opportunities and strategically expand overseas.

★ Event Highlights

- **Bank of China Malaysia Overseas Business Exchange**
First-Hand Market Insights and Cross-Border Financial Solutions for Malaysia.
Ms Jing WANG, Director, Corporate Banking Department, Kuala Lumpur Main Branch,
Bank of China (Malaysia) Berhad
