Talents required for the
development of the bio-med
industry, including
regulatory, research,
development, operation etc.

Funded by Trade and Industrial Organisation Support Fund, organised by the HK Bio-Med Innotech Association and implemented by Hong Kong Productivity Council, the project named "To improve the competitiveness of local bio-med industry by strengthening its connection with global high-end bio-med industry" aims to support the HKSAR Government's strategic plan to develop the bio-med industry, provides a series of complex training for the biotechnology industry in Hong Kong and organises exchange activities for the local bio-med industry, thereby increasing the local industry competitiveness.

The first event of the project, "Kick-off Seminar on Biotechnology Innovation and Translation Project", is scheduled on 21 May 2024. The event will bring together experts from government, industry, academia, research and capital sectors worldwide. They will deliver insightful presentations, engage in discussions about industry hotspots and promote valuable industry exchanges.

Event Content

- Hong Kong, Another Harvard Square for Drug Development in A Decade?
- Innovative Biotech and Medical Technology – Development Opportunities in the Greater Bay Area
